Dear Gentlemen:

Enclosed please find a copy of the "Final Sampling and Analysis Plan for Groundwater Investigations Involving Actinide Drilling-Artifact Contamination, the Industrial Area VOC Plume East Boundary, and Solar Ponds Plume Well Installations, July 1999." This sampling and analysis plan provides for monitoring well installation and groundwater sampling activities at three independent project areas at the Rocky Flats Environmental Technology Site. It supports the hydrogeologic site evaluation activities being conducted to refine plume extent and dynamics, and evaluate the potential for long-term contaminant migration to surface water.

Also enclosed is a comment resolution of your agencies' comments. If you should have any technical questions related to this report, please contact Norma I. Castaneda at (303) 966-4226 or contact me at (303) 966-5918.

Sincerely,

Joseph A. Legare
Assistant Manager
for Environment and Infrastructure
